Postmasters throughout the Union are requested to act as our agents. Those who may particularly ex-ert themselves in extending the circulation of this pa-per, will not only be allowed a liberal commission on sums remitted, but receive our warmest thanks.

## PROPOSALS FOR MAIL BAGS.

POST OFFICE DEPARTMENT,

Post OFFICE DEPARTMENT,

IN COMPLIANCE with the 17th section of the act of Congress "legalizing and making appropriations for such necessary objects as have been usually included in the general appropriation bills without authority of law, and to fix and provide for certain incidestal expenses of the Department and officers of the Government, and for other purposes," approved August 6, 1842; sealed proposals will be received at the Inspection office of this Department until the first day of May next, for furnishing, for one year, or for a longer period as the Department may see fit, and in such quantities and at such times as may be ordered, mail bags of the following description, to wit:

CANVASS MAIL BAGS.

No. 1 size, 43 inches long and 31 inches wide, to be made of cotton canvass, weighing 15 oz. to the yard, of 22 inches width, the yarn for the fabric to be doubled and twisted and five-fold.

No. 2 size, 41 inches long and 24 inches wide, to

No. 2 size, 41 inches long and 24 inches wide, to be made of cotton canvass, weighing 15 oz. to the yard, of 27 inches width, the cloth to be woven in every respect like that of the first size of bags.

No. 3 size, 32 inches long by 19 inches wide, weighing 10 oz. to the yard, the cloth to be woven as above described. The numbered sized bags to have each ten eyelet holes, with good and sufficient cords passing through them. The number 2 sized bags to have eight eyelet-holes with cords. The number 3 and better the better and the parts of the part

LEATHER MAIL BAGS. Pouches, or bags that open and are laced at the

ed free from expense and subject to inspection.

Size No. 1. 48 inches long and 30 inches wide.

" No. 2. 36 do do 24 do

" No 3. 24 do do 18 do

The main body of the pouches are to be made of good substantial bag-leather well tanned; the bot-tom of good skirting leather, and in an oval or round form, as the Department may direct; the seams to torm, as the Department and direct, the scans to be closed together with copper rivets, set at not more than an inch a part; the mouth or opening of the pouches to be covered with a flap with slits cut isto-it to receive the staples which are to be securely in-serted into the bag, at a distance apart not exceeding two and a half inches, with a chain passing through them, so as to secure the contents of the bag when a lack is affixed to it, against being abstracted. To the top and bottom of each pouch a handle is to be

Size No. 1. Body 46 inches long and 20 inches wide " No. 2. " 41 do do 18 do
" No. 3. " 42 do do 16 do
Ends or bottoms of size No, 1. 12 by 24 inches.

The horse mail bags are to be made of good sub-

The horse man bags are to be made of good ads-stantial bag leather well tanned; the seams to be closed together by good and strong sewing, or if by rivets, to be done so as neither to chafe the horse nor the rider; and the mouth or opening, which is on the side, to be secured by a flap similar to that described

side, to be secured by a map similar to the pouches.

The above described sizes of bags are such as are principally used for mail service; but bags differing in size from them will be frequently needed for peculiar service; and, as the lengths of all such bags will bear to their diameters the same proportion which exists between the lengths and diameters of the bags whose sizes are above described, all proposals must state the price, per inch in diameter, for each kind of bag offered for.

Proposals for furnishing canvass mail pouches made of fabric which is water-proof without being sized or saturated with any solution whatever, will be

made of fabric which is water-proof without being sized or saturated with any solution scharer, will be considered; and proposals for furnishing water-proof teather mail bags will also be considered.

Separate bids for the supply needed at each of the following depots, to wit: Boston, Mass.; New York, N. Y.; Philadelphia, Pa.: Baltimore, Md.; Washington City, D. C., and Louisville, Ky., will be required. All articles contracted for are to be delivered free of expense to the Department at the depots bid for, to be inspected and received and to be paid for after such inspection.

All bids should be accompanied with evidence of the competency and ability of the proposer to execute the work and with samples of the articles offered upon them.

Any failure on the part of the contractor to perform his obligations will invalidate the contract.

The proposals should be endorsed: "Proposals for meil begt," and be addressed to the "Third Assistant Pestmatter General"

C. A. WICKLIFFE.

PICTORIAL HISTORY

## THE UNITED STATES,

ROM the discovery of America by the Nor ROM the discovery of America by the North-men to the present time.—By Jours Paosr, Pro-fessor of Belles Lettres of the High School of Fhil-adelphia.—Embellished by upwards of three hundred original cuts, designed by Croome expressly for this work.—Now in progress of publication, and to be completed in twenty monthly numbers, at the unpa-ralleled low price of twenty-five cents each; the whole forming four octavo volumes.

raileled low price of twenty-five cents each; the whole forming four octavo volumes.

A full and copious History of the United States for families and libraries, has long been called for by the American people: the publisher has now the pleasure and satisfaction of presenting to the public such a work. It is the result of years of study and research by one of our ablest writers: and in order that the noble deeds and striking scenes connected with our history may be properly depicted, the publisher has engaged the services of a superior and distinguished artist.

In carrying out this undertaking, a great investment of capital has been required, and much mechanical skill employed to render it a work worthy of the admiration of every lover of his country; and one to which every patriot may point as an ovidence of the great degree of perfection and refinement our liberal institutions have secured us.

The first number appears this day, (April 1st); the succeeding ones will appear promptly on the first of each month until the whole is perfected. At the conclusion of each volume, a complete index and title page will be furnished.

The publisher pledges himself that the embellishments in the whole work shall exceed three hundred, and equal those in the first or specimen number in style and execution. The distribution of the pictures style and execution. The distribution of the pictures will of course be regulated by the subject, some chapters being much more susceptible of rich pictorial embellishments than others. The succeeding parts will contain the same number of pages as this. Persons at a distance, who are desirous of obtaining this work direct from the publisher, will please remit five dollars, free of expeuse of postage, (Postmasters' franks can always be obtained for realitances for periodicals,) and the whole will be sent.—Clubs, by a remittance of fatteen, five copies, by a remittance of fatteen, five copies. Postage of each number, under an hundred miles, four and one-half cents; upwards of an hundred

rostage of each number, under an infinite interfeour and one-half cents; upwards of an hundred miles, seven and one-half cents.

Individuals desirous of acting as agents for this work, are advised to make application.

E. H. BUTLER, Publisher.

PESLADELPHIA, April 1, 1843. mar28—5t

WILL be published, in the City of Washington, by the 20th of April, the first number of the

"GERMAN NATIONAL GAZETTE," a newspaper devoted to the political, social, and lite-rary in crests of the day. Terms: Per annum §2 00, strictly in advance. A number of correspondents in Europe, amongst them some of the ablest German writers of the day, are engaged for the paper, which will also contain English articles.

In connection with the above is published the monthly.

"GERMAN IN AMERICA,"

monthly

"GERMAN IN AMERICA,"
of mommoth size, now the largest paper in the Union. The eighth number will be issued on the 1st of May. Terms: §1 50 per annum, in advance. Both papers sent to one address for §3 00, in advance. The "German in America" is a paper principally of a literary character, and intended to be an interpreting medium between the literary genius of the Saxon and Anglo-Saxon race. It will exhibit some of the best literary product ons, especially poetical, in each language, with parallel versions in the other. To those therefore of the English-American public, who are studying the German language, or wish to become familiar with German literature, this paper is strongly recommended. It contains a complete list of all bocks, periodicals, etc., published in Germany. Business men who deal, or wish to deal, with the American population of the German tongue, will fied it greatly to their advantage to advertis in this paper. It has already acquired a circulation which extends over the whole Union, the contiguous South, Canada, and Germany, and by far exceeds that of any other German paper in the Union—its tendency being not of a local, but of a universal character. Besides this, the rates of advertising in both papers are exceedingly low, so as to enable every body to advertise who can be profitted by it.

JUST published and for sale at Stationers' Hall the official Army and Navy Register for 1843, by order of the Secretaries of the Army and Navy in com-pliance with a resolution of the Senate and House of

in the vicinity of the works, and is the only Crown Ginss made from that species of sand. It is capable of standing every change of climate, not will it lose its lustre to acc.

The Redford and Seranae Crown Window Goess are distinguished from ordinary Glass by the uncommon evenness and beauty of surface, the superior transparency and lightness of color, the great thickness, and the general excelence of the materials which compose them. The surface not seing pelished after being blown, retains the enamel, britiancy, and hardness, and is not subject to the objection so often applied to Plate Glass, to being coally defacted and permanently bedinned by dust; being made of extra thickness, will, without injury, without of cent winds, ball storms, jure of cannon &c. In use, in the end, will prove more economical, independent of its adding so much to the beautiful appearance of buildings. CONSUMPTION CANNOT BE CURED:

Those who say it can are imposters and quacks. Still it may be prevented or its progress stayed, by using Dr. Peters' Cough Lozenges. Begin in season. Do not neglect a slight cough until consumption has commenced its ravages. A delay of a few days often prove fatal. Price 25 cents per box.

Peters' Cough Lozenges have performed some of the most remarkable cures on record. One trial of them is more satisfactory than a column of certificates. aildings.
Specimens of this deservedly popular Glass may be

Specimens of this deservedly popular Glass may be seen in the New York Exchange and Custom House. Howard's Hotel, Bronson's Buildings, Broadway, Centre Market, and a great many private residences and stores in various parts of the city, slab, in the Exchange and Custom House, Bostom; Girard College, Philadelphia; Exchange Hotel, Baltimore, in the peblic buildings at Washington city; the Capitol at Raleigh, North Carolina, and in many both making the contraction of the peblic buildings. Peters' Medicated Lozenges are the most valuable iscovery of the 19th century. They are entirely lessant to the taste, and more efficient than any other dedicine. These Lozenges are the result of long ontinued and patient investigation and experiment, onducted in concert by some of the most distinguish-

conducted in concert by some of the most distinguished physicians in the Union, who believing that some of the best known remedies might be prepared in a palatable form, have directed their labors to that end, till they have produced preparations in the popular form of Lozenges for nearly every disease incident to the human system.

To parents we would say, do not be without these Lozenges at any time.

furtongue, nausea, distension of the siomach and bowels, incipient diarrhos, flatulency, habitual costive-uess, loss of appepite, blotched or sallow complexion, and all cases of torpor of the bowels, where a caon under our notice, is her of domestic or fereign pro-duction; and it affords a proud specimen of the skill and enterprise of American manufactures."

The following gentlemen, Architects, have permit-

above Glass:
Robert Mills, Architect of the Public Buildings, Washington.
Thomas U. Walter, A-chitect of the Girard Col] lege, Philadelphia.
Isaiah Rogers, Architect, New York.
Ithiel Town, Architect, New York.
Calvin Pollard, Architect, New York.
Gamaliel King, Architect, New York.
Thomas Thomas, Architect, New York.
The subscribers have spared to pains to make this one of the best establishments in the United States Orders from any part of the United States for any sizes, from 6 x 4 to 30 x 18, R-dford or Saranae for dwelling houses, stone, light-houses care a bounder.

WORM LOZENGES.

Dr. Peters' Worm Lozenges are the surest and safest worm destroyer ever discovered.

It is estimated that, in the United States, 100,000 children die yearly from the effect of worms alone. This vast mortality can be almost entirely prevented by the use of Peters' celebrated Lozenges. Thousands and tens of thousands pine away and die without suspecting the real disease. The following are a few of the symptoms: headache, pale lips, flushed cheeks, disturbed dreams, feverishness, thirst, bad taste in the mouth, offensive breath, itching of the nostrils, pain in the stomach, nausea, unnatural appetite, swelled stomach or limbs, sense of something rising in the chest, &c.

Erms. Catharine Ann Briggs, Cherry street, Philadelphia, has a little daughter who had been in a decline for several years. At times she would eat voraciously, and sometimes eat nothing at all; and she was fast wasting away. Her symptoms were so unusual and centradictory that the dectors knew not what to do him to head the was the world. PITTSBURGH, PA. Card-WM. E. Austin, Esq., will give his attention to my unfinished business; and I recomme him to the patronage of my friends. Watter Forward.

HOWARD HOUSE

nov 17-3twatf

A MERICAN GROWN WINDOW GLASS— manufactured in the village of Redford, county of Clinton and State of New York. To the Retford Crown Glass has been awarded the first Premium of the American Institute in the city of New York for five successive years, and has received a gold medal in commendation of its superi-

or merits

This Glass is made from white flint sand, obtained

its lustre by age.

The Redford and Saranae Crown Window Goes

the point buildings at Washington city; the Capitol at Raleigh, North Carolina, and in many both public and private edifices throughout the United States. It has been used in a great number of steamboats and railroad cars, and given entire actifoction. It is be leved that the above will suffice to prove that this Glass stands pre-eminent, and that it deservedly merits the approbation of builders and consumers of Glass.

The Saranac Cr.wm Glass is most used in stores and buildings of the second order, green houses, &c., where strength and clearness are particularly desired, and will range about 334g per cent. changes than Redford. The double thickness is always used for lighthouses, and is taken by the true comonist for sky lights, steamboats, ships cahin windows, &c.

Ground Glass for sky lights, churches, and artists windows, furnished to any pattern or size. The Glass is carefolly packed in stout boxes, nailed, and secured so as to be transported with safety to any part of the United States.

For the more complete satisfaction of persons at a distance, who may not have an apportunity to examine

It is admitted by all who have used them, (and who has not?) had Dr. Peters' Vegetable Pills are the most unrivalled medicine ever discovered by the ingenuity of man. They are a sovereign eure for the following complaints:—Yellow and billious fever and ague, croup, liver complaint, sick headache, jaundice, asthma, dropsy, rheumatism, enlargement of the spleen, piles, colle, female obstructions, heartburn, furthering agrees.

For the more complete estisfaction of persons at a distance, who may not have an apportunity to examine this beautiful article, the following testimonials are respectfully offered for consideration.

Extract from the report of the committee of the American In titute, October, 1837:

"For richness of lustre and brilliance of surface, as well as thickness as distinguish, the Recoord Glass is the most beautiful article of the kind that has ever fall-

ed us to use their names in commendation

red to every other medicine
Mrs. E. Ward, of New York, was troubled with
dyspepsia and liver complaint for thirteen years. By
using these Pills a short time she was completely ured. Miss Clark was afflicted with irregularities and ob-Miss Clark was afflicted with irregularities and obstructions, attended with most distressing symptoms. Se was cured by usuing Dr. Peters' Pills.

Hon. E. D. Davis was afflicted with rheumatism, so as to be unable to dress himself. Three boxes of Peters' Pills entirely cared him.

But why multiply testimonials? We say to all, try Dr. Peters' Vegetable Pills, and we will guarantee that afterwards you will use them in preference to all others. welling houses, store in the Red and or Saranae for dwelling houses, store, light-houses, green houses sky lights, &c. addressed to them or Chantes Gorr, Agent, New York, or to any of their celling agenta, will be executed with care and prompt attention.
